

39th Annual International Value Engineering Conference

Sustainability through Value Engineering

Mohta Trophy

The award for the best value engineering effort, will be awarded to the leader of that Value Engineering Team, which, in the assessment of the judges, has submitted the best value engineering project report of a project or initiative implemented during the preceding year prior to the Conference date. The winning team will make a presentation during the conference. The entry can be submitted by the Team Leader, certified by a business head or a very senior manager of the organisation (preferably by a Director, President, Vice President or General Manager).

Contact for submission of award entries:
